

Security protection, peace of the world

Detail

Function features:

- *With high precision 8 areas, it features more accurate detection.
- *The indicator light automatically shows the interfering signal of installation environment.
- *Each area can be independently set with 0-199 sensitivity range.
- *It can be as sensitive as detecting clip-sized metal.
- *Intelligently Automatic recording of alarming times and number of people passed.
- *With the unique infrared setting, it has strong omission proof and anti-interfering capacity.
- *The cipher protection can prevent parameters being maliciously changed by unauthorized people.
- *It is harmless to pacemaker, pregnant woman or magnetic storage media.
- *Button operation through gentle touch.
- *It is equipped with LED indicator lights as high as human body at the both sides of the gatepost.
- *The result will be clear at a glance.
- *Applying digital impulse and magneto electric compatibility, it features

faster sensing, more accurate detection, higher sensitivity and stronger anti-interference capacity;

*With a fixer, it is slip, water and damp proof.

Technical parameters:

Passage dimensions:

2000 mm × 750 mm × 530 mm

External dimensions:

2200 mm × 870 mm × 530 mm

Power supply: AC 220V Power: 30 W

Working environment: -20 °C ~ 55 °C

Machine net weight:

75 Kg Transportation weight: 90 Kg

Standard: GB15210-2003
